

PRODUCT CARD

INSTRUMENT AND DRESSING TROLLEYS

Instrument and dressing trolleys manufactured by WIBO-BT are made entirely of stainless steel 1.4301. They are designed for transportation and storage of medical supplies and bandages and other dressing materials.

They are equipped with high-quality wheels and bumpers to prevent damage. Optionally, carts and trolleys can be equipped with special accessories. Flat tabletops, optionally equipped with rims protecting against falling off or sliding of the materials.

Carts for surgical instruments are designed with manual height adjustment system with clamp type locking or adjustable height by means of a hydraulic pump using the foot lever.
